Why Called "Automobile" Skates

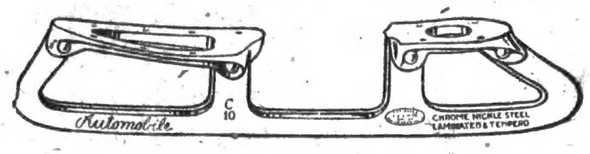

OUNCES LIGHTER & STRONGER

Because the Blades are made from the special Chrome Nickel Steel perfected for use in those parts of High-grade automobiles where strength and lightness must be combined.

The Blades are tempered hard as glass on the outside, and take a very keen edge, but they are not brittle. By a special process, the hardening extends inward for only a certain depth. This leaves a soft, tough "core" which renders the blade practically unbreakable.

"EVERYTHING GOOD in SPORTING GOODS"

Love of The Wild

— BY —

ARCHIE P. McKISHNIE

Printed by Special Arrangements with Thos. Allen, Toronto, Ont.

(Continued)

He unsnapped the dog's chain and Joe sprang up and left a wet caress on the man's cheek. Th n with a low whine of welcome he bounded away.

"Get down, Joe, you good-for-nothin' dog, get down," commanded a voice, and McTavish turned to see Mrs. Ross and Mary Ann coming up the path.

"Good-mornin', good-mornin'," he shouted. "Well, w ll now, but you two are early visitors. Isn't it a grand mornin'? Come up to the house—the little ma'll be glad to see you both."

"How is she to-day" Mrs. Ross, rather out of breath from fighting off Joe, set her basket down on the grass and l aned against a tree.

"I can't say she's any stronger, widder."

"Verily, 'all flesh is as grass,'" sighed the good woman, shaking her head dolefully.

The man glanced up quizzically.

"Ma is quoting scripture," explained Mary Ann. "She says we all should work according to some text in the Bible."

"That godly man, Mr. Smythe has taught me much, Daniel," proclaimed the widow, stooping for her basket, "not sayin' but what I was disbelievin' that flesh was anythin' like grass till Mr. Smythe pointed out them very words in Lukeronomy, 8th verse. My, but it's wonderful things the good Book teaches us."

McTavish looked at Mary Ann. The girl was smiling and her black eyes were dancing with more than the zest of life. He took the basket from the woman's hand and they passed up the path toward the house.

"I can't just understand what's wrong with ma," said McTavish. "She don't seem to suffer any, just grows weaker day by day. She's too weak to b carried a long distance to see a doctor, and it's too far here for a doctor to come. I wish I know d what to do."

Mary Ann laid her hand on his arm.

"Why not get old Betsy to come and see her?" she sugg s ed.

"Mary Ann!" The widow stood still on the path and eyed her daughter sternly. "Are we cannibals of the disenlightened ages to allow superstitious rubbage to mold our ways? What does the good Book say about witchcraft but that it's 'red in the cup and stingeth like a snake in the grass?'"

"You're thinkin' of the verse as cautions man against strong drink, widder," correct d McTavish kindly: "'Look not upon the wine when it is red.' Do you know," he went on slowly, "I've been thinkin' as maybe Betsy can cure people. We know she cur d some of our people right here in Bushwhackers' Place."

"Yes," nodded the woman, 'she did, and it do seem strange that witchcraft could do anythin' as is real good, don't it?"

Gloss met the visitors at the door and clapped h r hands with d light.

"Oh," she cried, "we were all wishin' you would both come over this mornin'. What d'ye suppose we are doin', Mary Ann?"

"That's easy to tell," returned the widow, sniffing the app tizing atmosphere. "If them ain't cookies you are bakin' I don't know cookies or bakin'. Dear heart, if there ain't the sweet little woman hers lf!"

She cross d the room and bent over the willow couch.

"And so you got up early, too, deary," she said, taking the thin hand lying on the coverlet in hers, and patting it caressingly. "Goin' to help with the bakin', eh?"

"My, if you'd only heard her bossin' Granny and me 'around you'd think she was takin' a hand at' right," cri d Gloss, "and she's that wasteful, Mrs. Ross; bound to use twice as many eggs as are needed and she won't l t us use pork tryin's for short'nin'. We got to use pure lard think of that!"

"They are contrary," charg d the invalid, her eyes resting tenderly on the tall girl who, with sleeves tucked up above the elbows, was cutting disks of dough with a can-top, "but I make them obey, Mrs. Ross—don't I, Granny?"

"Aye, Mary, that you do," smiled old lady, placing a basket of newly gathered eggs on the table, "but we'll na stand it fra lang, for in a wee bit you'll be up an' aroon an' doin' the cookin' yoursel'. An' then we'll do the bossin', wont we, Bonnie?"

"We will," cried Gloss, "we'll make her do all the bakin', Granny."

McTavish entered, carrying a big golden pumpkin in either hand.

"Declute says he wants these punkin'-pies made accordin' to ma's orders," he grinned. "Boy and me raised these pumpins just so's we could have a feed on ma's pies, and Declute has been hangin' around our cornfie'd all fall hintin' mighty broad that we send him a pie when ma makes 'em. I guess three or four won't come amiss at the bee, eh, Mary Ann?"

He piled the pumpkins in the girl's lap and pinched her red cheek.

"Somehow I wish there was goin' to be a weddin' as well as a loggin'," he teased. "Haven't had a chance to play 'Old Zip Coon' weddin' march since Peeler's big Jake married French Joe's little Marie a year ago. The old fiddle 'll begin to think this big bush place is gettin' behind the times."

"Mr. Simpson don't take to fiddle-music," observed Mrs. Ross with a sigh.

Gloss glanced quickly at Mary Ann, and the eyes of the bush-girls m t in a look of mutual understanding.

"Bill Paisley loves fiddle-music" cried Gloss, dropping the long pan of brown fragrant cookies on the tab'e and reaching for the old violin. She placed it in McTavish's hands and, catching up Mary Ann from her chair, wound her long arms about the girl.

"Play," she commanded, and Big McTavish, sitting on a corner of the table, struck up the old tune of "Turkey in the Straw."

In and out, up and down the room the girls flashed, every movement one of grace. The warm blood showed in their cheeks, the wild life in their eyes. Not many could gallop to the quick music of that old tune, but Gloss and Mary Ann had l arned how.

Granny McTavish, in her corner, peeled the potatoes with quick, uncertain slashes, her head moving up and down to the inspiring strains of the fiddle. Widow Ross aros , clapping her hands in time with the music, her matronly face agl am with something akin to youth, her foot stamping the floor in regular thumps twice to each measure. As the music waxed faster Granny McTavish aros , and with trembling hands removed her glasses. Big Mac, his fac hugging the old fiddle, smiled as he noted the action, and nodding to widow Ross he changed abruptly to an old Scottish air. The sick woman had struggled up on the couch and t ars of laughter were streaming down her face.

"Dance a Scotch four for me," she begged, and Granny and widow Ross faced the two girls on the wide floor.

Oh, such a dance as that was! The young girls cou'd dance, and no mistake. But they could teach the older ones nothing when it came to executing that old Scotch dance. In and out they darted, faster and faster, their feet moving in perfect time to the exhilarating bars of the music until Big McTavish, unable to contain his joy longer, leaned back on the table and laughed until the very rafters shook and threaten d to bring smoked hams and dried venison strips down upon the heads of the merrymakers. Then Granny, her wrinkled face working, slipp d back to her pan of potatoes and widow Ross sank into a chair and reached for her basket.

"Sakes alive, dearest," she panted, "I'm too fleshy to stand it any more."

"Oh, it has made me feel so much better," declared the sick woman. "I do love the fiddle, and it does seem so good to think that dear Granny has not forgotten the old n days."

"When the little ma is well, which please God 'll soon be," said McTavish, "we'll have a real old-fashioned dance here, with all the old boys and girls and all the young boys and girls right here together. And then, ladies, ma and me'll show you how the minuet should be danced. He's a good fiddler, is Joe, almost as good as anybody I know."

He hung the instrument up on its nail and, passing on to the couch, sank on his knee b fore it.

"Ma," he said softly, stroking the heavy brown hair away from the little woman's forehead, "there's only one real shadder in all this big bright bush-world of ours, and God ain't goin' to let that rest there long. I've watched shadders long enough to know that they don't last. When this one pass s there'll be happy times. You maybe can guess how much I miss you up and around, ma, so won't you try and get better for my sake, and all our sakes?"

She caught the rough, strong hand in hers and held it against her face.

"Mac," she whispered, "I'll try even harder than I have been doing."

He patted her cheek and made to rise, but she held him.

"And Mac," she said, a catch in her voice, "you mus'n't worry about me, or about anything, and you must show Bob that it is useless to worry about los ng this bushland. Nobody can steal it, Mac, believe me, I know."

"O' course you know, ma." He arose and hastily left the house.

Widow Ross, in white apron and bare arms, was dissecting one of the gold n pumpkins on a block of wood outside.

"Ander'll likely have a fine day for his loggin' to morrow," she remarked as McTavish passed.

"There'll be quite a crowd there, I bet," returned the giant. "I've sort of l'd 'em all to expect a good feed of custard, widder."

"Oh, you go along, you blarney," cried Mrs. Ross. But she went into the pumpkin with renewed vigor and started to sing:

"Oh, we'll cross the river of Jordan,
Happy, happy, happy, happy,
Cross the river of Jordan,
Happy in the Lord."

McTavish listened in wonderment, then with a chuckle made to pass on. The woman bade him stay a moment.

"I'm not just sure I done right in darcin' in that Scotch four," she faltered. "Mr. Smythe seems to think darcin' wrong, same's smokin' and such."

"Humph, well now, it seems as Smythe's been preachin' quite a lot to you, widder. See him often?"

"Pretty often," answered the widow slowly. "He's been over to my place some three or four times during the last few days. He's a very nice man, and a good livin' one."

McTavish scratched his head and frowned.

"Humph," he nodded, "quite so, widder."

4087 THE PROPRIETORS

The cleanliness of the sealed package appeals to the daintiness of a woman.

She knows that it protects the contents from dust, dirt, odors and moisture.

She will be doubly pleased with our *new waxed board* package —which we have adopted after several years of testing—because it is stronger, more secure and more completely air-tight; altogether the best container for tea that has yet been devised.

RED ROSE TEA is good tea

Red Rose Coffee is as generously good as Red Rose Tea

Demand for British Columbia Fruit

Almost Every Quarter of the Globe is Included in the Markets.

The way in which the market for Okanagan apples is spreading out is shown by recent shipments made from Summerland, British Columbia. Almost every quarter of the globe is included in the markets for these goods. Already this year numbers of carloads have left there for distant parts.

The Summerland Fruit Union has shipped three carloads direct to Glasgow, Scotland, and five other carloads shipped by the same organization were consigned to Montreal for reshipment abroad. The Union has also sent a carload of winter bananas to New York and another carload of the same variety will be despatched shortly. This week two carloads were shipped by the Union to New Zealand.

The Steuart Fruit Co. has already shipped seven carloads, all of these going to the Old Country, five to Glasgow and two to London. They have further orders for the same markets.

For years I have never considered my stock of household remedies complete unless a bottle of Minard's Liniment was included. For burns, bruises, sprains, frostbites or chilblains it excells, and I know of no better remedy for a severe cold in the head, or that will give more immediate relief, than to inhale from the bottle through the nasal organ.

And as to my supply of veterinary remedies it is essential, as it has in very many instances proven its value. A recent experience in reclaiming what was supposed to be a lost section of a valuable cows udder has again demonstrated its great worth and prompts me to recommend it in the highest terms to all who have a herd of cows, large or small. I think I am safe in saying among all the patent medicines there is none that covers as large a field of usefulness as does Minard's Liniment. A real truetism good for man or beast.

CHAS. K. ROBBINS,
Chebogue Point, N.S.

Manitoba's Grain Crops

Province's Wheat Crop This Year Will Amount to 40,584,330 Bushels.

An estimate, based on figures contained in a bulletin issued by the Manitoba Department of Agriculture shows that the provinces' wheat crop this year will amount to 40,584,330 bushels. A total of 2,705,622 acres were put under wheat, and the average yield was fifteen bushels. The oat crop will amount to 840,482 bushels, the average yield on a total acreage of 1,875,934 being about thirty-three bushels. Next in order of size b ing barley and potatoes. The former will amount to 18,459,716 bushels on an acreage of 859,078, showing an average of twenty two bushels. The potato crop will amount to 370,000 bushels. Approximately one hundred bushels an acre were produced on 37,000 acres devoted to potatoes.

"Threshing practically is finished in the province," the bulletin says. "A few scattered plots of flax are not yet threshed. Northern Manitoba received much more rain in September and October than Southern. On the whole the land is well moistened for next year." Fall grazing has been excellent everywhere, the report asserts. The supply of winter feed appears to be sufficient in all parts of the province.

Grasshoppers on the Screen

1,000 Feet of Moving Picture Film Illustrating the Grasshopper Campaign.

Illustrating all phases of the grasshopper campaign, 1,000 feet of moving picture film have been taken by the Field Crops Branch of the Saskatchewan Department of Agriculture and these pictures will be used as educational propaganda on the Better Farming Train and at meetings at country points.

The series starts with the picture of a map illustrating the infested areas in 1918 and this year. Field directors are shown holding an organization meeting and the Minister of Agriculture is depicted signing orders for the huge amount of supplies which were used for poisoning the insects. The pictures also illustrate the movement of supplies to the scene of hostilities, their distribution and the mixing of poison bait. It shows how the bait was spread and pi'es of grasshoppers lying dead in the fi lds a couple of days later.

The picture terminates with an illustration of female grasshoppers depositing their eggs in preparation for the next year's hatch and a farmer ploughing his land deep in the fall, turning the eggs so far down that they will not hatch.

Ruddy Cheeks, Sparkling Eyes, Womanly Health

Thousands of Vigorous, Happy Girls and Women Endorse the Treatment.

BRINGS KEEN APPETITE GOOD SPIRITS.

Women who are all played out, droopy, pale, nervous and irritable will certainly be greatly interested. So will folks who are embarrassed with pimples, rashes and pallid complexion.

The real joy of living is best known to those who k ep the blood pure and the system toned by the use of Dr. Hamilton's Pills, a soothing tonic laxative that puts health, vim and spirits into those who lack these qualities.

You will be stronger, better nourished, in better spirits, and sl ep better after using Dr. Hamilton's Pills.

This wonderful medicine will do you good in a hundred ways. It will put spring in your step, an attractive brightness in your eyes, and on your cheeks will be stamped the glow and blush of a June rose. All this is possible because Dr. Hamilton's Pills bring about vigorous digestion, perfect assimilation, pure blood, and a proper working of all the organs.

The benefits from Dr. Hamilton's Pills come about in a natural, soothing, easy way, and girls and women of all ages are advis d to try this old-time family remedy, which is sold by all dealers in 25c boxes.

Holland Developing Her Coal Resources

Needs Over Six Million Tons Every Year.

Although an agreement between Holland and Germany provides that the latter is to supply 90,000 tons monthly to Holland, the Dutch Government fears Germany may not be able to spare that much fuel now, and has worked out plans to increase Dutch coal production through Dutch mines in German territory near Aix-la-Chapelle, Holland.

Under government management production has increased 100 per cent., while private mines could only increase their output by 50 per cent. It is hoped that within 10 years Holland will be able to supply out of her own mines all coal needed—about six and a half million tons per annum.

Leap Year Hint.

He.—I think your family name is such a fine one.

She.—Do you? I get dreadfully tired of it.—Boston Transcript.

Former Kaiser Enjoys Freedom of Doorn

Dutch Government Relaxing Restrictions Placed on German Emperor.

The severe restrictions which the Dutch Government imposed on the movements of the former German Emperor at the time of the Kapp revolution in Berlin, at the request of the Allied Powers, appear to be gradually relaxing.

William now moves about more freely perhaps than at any time since he came to Holland nearly two years ago. These movements are, of course, confined to the territorial limits set by a royal decree, including the villages of Doorn and Amerongen, but inside this territory the exile is now fulfilling his dream of living the life of a Dutch country gentleman.

He goes frequently to Amerongen, to visit Count Bentinck, his former host, and to chat with the notary, Schroot, who is not only the former Emperor's business agent and attorney, but also more or less of a personal friend.

William also calls on a number of families of the Dutch nobility who lives around Doorn and Amerongen, principally those whose heads belong to the Knights of St. John, the order of which, as King of Prussia, the German Emperor was leader.

Dutch guards escort him on these trips but he goes whenever he likes. Doorn has lost all curiosity in the Hohenzollerns, and only the occasional tourist halts to stare at William's automobile as it passes in the streets.

Saskatchewan Building.

Building construction, actually started in the province of Saskatchewan during the month of September amounted to $1,118,094, as compared with $1,448,938 for August. This total is divided according to class of construction as follows:

Residences—Frame, $72,000; brick, $15,600.

Commercial — Frame, $116,600; brick $828,294; concrete, $5,000.

Industrial—Brick, $73,000

General engineering—$7,600.

It will therefore be seen that only $188,660 is accounted for in frame buildings, against $916,894 in brick and $5,000 concrete.

A married woman's rights might be used in correcting her husband's wrongs.

Many a man has been turned down while waiting for something to turn up.

B·C GIN PILLS FOR THE KIDNEYS

Skin Sufferers Read—

"I had a severe attack of Eczema," says Mr. Michael Tapley of Radisson, Sask. "My body was simply covered with eruption. I had tried every salve and skin soap that money could buy before I hit upon Zam-Buk.

"Zam-Buk proved the very treatment I needed. I used Zam-Buk Medicinal Soap for bathing, and afterwards applied the Zam-Buk balm in liberal quantity. Soothing and comforting, this treatment soon brought amazing improvement. Persistence with Zam-Buk resulted in my skin being completely cured."

Use Zam-Buk for Cuts, Wounds or Sores. Its healing power is astonishing! 50c. all dealers.

—It's Zam-Buk You Need—

Sprouted Grain

Planting of Sprouted Grain Is No Good In The West.

Sprouted grain planting, the system said by M. Pion-Gaud, the Luther Burbank of France, to threaten the revolution of grain growing, is not practicable in Western Canada, according to George H. Hutton, superintendent of the agricultural branch of the C.P.R.'s department of natural resources.

Any machine that could be used for sowing seedlings would knock off the sprouts and destroy the germinating power, he says.

The plan submitted by Pion-Gaud provides for the leaving of grain in heaps till it sprouts, but Mr. Hutton claims that the moving of such sprouted grain would impair its germinating value to a fatal extent. Bacterial solutions, however, are often used to help the germination of leguminous plants such as alfalfa and red clover.

Aviators Cut Fire Losses.

Fire losses in the forest reserves of Alberta are expected to be greatly decreased this season owing to the splendid work accomplished by the aeroplane forest patrol operating from Morley, is the opinion of a member of the department. Since the airmen started their work they have been able to spot out a number of fires and by notifying the rangers, the fires were extinguished before any appreciable damage was done.

Almost every part of Puget Sound is navigable for the largest vessels.

An extraordinary dry fog extended over Europe and part of Asia in 1783.

Expression of Loyalty.

An expression of appreciation on behalf of King George to the message of loyalty sent him recently by the Army and Navy Veterans' Association of Canada has been received by Arthur F. Sladen, private secretary to the governor-general, who in turn has forwarded it to R. C. Irving, Dominion secretary of the association. The message to the King was despatched during the course of the annual convention held at Winnipeg.

Aerial Mail Service.

An aerial mail service has begn inaugurated between Victoria and Seattle, U.S.A. From 400 to 600 pounds of mail is being carried on each trip.

WHEN RHEUMATISM HITS YOU HARD!

Sloan's Liniment should be kept handy for aches and pains

WHY wait for a severe pain, an ache, a rheumatic twinge following exposure, a sore muscle, sciatica, or lumbago to make you quit work, when you should have Sloan's Liniment handy to help curb it and keep you active, and fit, and on the job?

Without rubbing, for it *penetrates*, apply a bit today to the afflicted part. Note the gratifying, clean, prompt relief that follows. Sloan's Liniment couldn't keep its many thousands of friends the world over if it didn't make good. That's worth remembering. All druggists—three sizes—the largest is the most economical. 35c, 70c, $1.40.

(Made in Canada)

HOME-MADE BREAD

Home bread-making reduces the high cost of living by lessening the amount of expensive meats required to supply the necessary nourishment to the body. The increased nutritious value of bread made in the home with

ROYAL YEAST CAKES

should be sufficient incentive to the thoughtful housewife to give this important food item the attention to which it is justly entitled. Bread made with Royal Yeast will keep fresh and moist longer than that made with any other.

Made in Canada

Cattle Sale in Aberdeen

Efforts Unsuccessful to Have Embargo on Canadian Cattle Removed.

Messrs. Duthie, of Collynie, Duthie Webster, of Tarves, and James Durno of Uppermill, the three Aberdeenshire farmers who have gained a world-wide reputation as shorthorn breeders, had their annual sale of bull and heifer calves early in October, and realized £37,694 for 68 animals, as compared with £53,151 for 69 last year. Still an average of £555 per head—the highest price was 3,200 guineas for a Tarves calf—suggests that there is still money to be made in livestock breeding.

The Scottish Chamber of Agriculture sent a deputation to plead once more with the British Minister of Agriculture to remove the embargo on the importation of live cattle from Canada, but received no encouragement.

The speculator who gets a straight tip often finds there is something crooked about it.

PILES Do not suffer another day with Itching, Bleeding, or Protruding Piles. No surgical operation required. Alberta Exhibits

Preparations Being Made for the International Livestock Show at Chicago.

The agricultural and mineral resources of the province of Alberta will be demonstrated in a practical manner at the International Livestock show to be held at Chicago next month.

Grains, grasses, coal, oils and other specimens of the provincial resources are now being collected and will be exhibited under the personal direction of the Alberta Minister of Agriculture. The quality of the livestock raised will also be well demonstrated and it is expected that the exhibits from the western prairie province will bring back many coveted ribbons from the international.

A novel method has been followed in preparing the stock for the exhibition. The young animals were all presented by well-known Alberta cattle breeders to the agricultural department of the provincial university. The university has been preparing and feeding this prize stock and is itself making all arrangements for their competition with the best that the United States can produce.

Cigarettes Illegal in Kansas.

The Kansas supreme court has upheld the state law forbidding the selling or giving away of cigarettes.

Changing Seed

Experiments Show Plan Has Nothing To Recommend It.

Many farmers still think it advisable to change their seed grain every two or three years. In the light of the work done by the various experimental farms of Canada, this practice has nothing to recommend it, while on the contrary, it has been shown that there are distinct advantages in not changing seed. By the use of a good fanning-mill it is quite possible to grow the same grain year after year on the same farm and maintain its productivity, provided that the grain is seeded early each season on well-drained, fertile soil. The seed should not be blamed for poor farming, which is most frequently the cause of the farmers dissatisfaction.

Well Worth Trying. Sufferers from Asthma who have tried many forms of treatment without beneficial results should not succumb to despair. They should at once procure a package of the genuine Dr. J. D. Kellogg's Asthma Remedy. The remarkable record established by this standard remedy is convincing proof of its extraordinary merit in the treatment of this agonizing ailment. If you are one of Asthma's many victims try Dr. J. D. Kellogg's without delay.

Shepherds Who Walk On Stilts.

In the sheep raising lands of the South of France, in the shade of the snow capped Pyrennes, shepherds of large flocks are accustomed to walk on stilts to increase their range of vision over their charges. The stilts are convenient as they insure dryness when fording streams. These shepherds also wear sheepskin coats, and were it not for their great height would be hardly distinguishable from the sheep, when seen at a distance.

Gold Refining Plant.

The Pendennis Gold Mining Company, capitalized at $1,000,000, is planning to erect an ore reduction mill with a capacity of 30 tons per day at the Rice Lake gold fields, Northern Manitoba. It is proposed to begin construction without delay.

CASCARETS

"They Work while you Sleep"

Do you feel at "sixes and sevens" today? You are bilious, constipated! You feel headachy, full of cold, unstrung. Your meals don't fit—breath is bad, skin sallow. Take Cascarets tonight for your liver and bowels and wake up clear, rosy and cheerful. No griping—no inconvenience. Children love Cascarets, too. 10, 25, 50 cents.

DON'T LOOK OLD FROM HERE UP

A little "Danderine" checks ugly dandruff and stops hair falling

Get a small bottle of "Danderine" at any drug store for a few cents, pour a little into your head and rub well into the scalp with the finger tips. By morning most, if not all, of this awful scurf will have disappeared. Two or three applications often remove every bit of dandruff and stops falling hair. Every hair on scalp shortly shows more life, vigor, brightness, thickness and color.

Smuts is Praised

His Action in Bringing About a Union of the Parties in South Africa Prevented Strife.

The London Times says that General Smuts' patriotism and wisdom and that of the Dutch-speaking people who call him leader, has saved South Africa from the dark certainty of a civil war. They made attempts at reconciliation with Hertzog and the Nationalists, but always on the stern condition of no compromise with Nationalism, which the Nationalists would not concede. General Smuts has now made an appeal to all South Africans who believe in racial unity to reject Republicanism, which appeal has been enthusiastically received by his own and the South African party and also by Unionists which represents almost wholly the English-speaking South Africans led by Sir Thomas Smart.

The new party to be formed may involve the complete disappearance of the Unionists. Both component parts of the new party, says the Times, make costly sacrifices, namely Smuts and his party, that of a formidable breach with men of their own race, and Smart and the Unionists that of the identity of their party with all its traditions and proper pride. Both will have the abiding consolation of the knowledge that devotion to their country's welfare is worth infinitely more than racial ties or party triumphs.

WHY ANAEMIA PREVAILS

The Strenuous Conditions of Life To-day Are Responsible.

Mothers who remark that girls today are more prone to anaemia than the girls of a generation ago, should look back at the surroundings in which they and their companions lived. They would easily see the reason in life's altered circumstances today.

Now the school-girl's life is more strenuous; her more numerous studies are a severe tax upon her strength. Also, girls enter business soon after leaving school—at an age when they most need rest and outdoor life. Their womanly development is hampered by the stress of working hours, hurried and often scanty meals. Girls are more liable to bloodlessness today, but there is this consolation that, whereas doctors formerly regarded anaemia as often incurable, the cures are now counted in tens of thousands. Such medicines as Dr. Williams' Pink Pills have restored to good health thousands of weak anaemic girls and women, simply because they contain the elements necessary to make new, rich, red blood which means good health and vitality.

When your daughter's strength fails and pallor, breathlessness and backache disclose her anaemic condition, remember that you can make her well and assure her healthy development by giving her Dr. Williams' Pink Pills to make good red blood. Remember, too, that for women of all ages Dr. Williams' Pink Pills are especially helpful in the many ailments that result from watery blood. They make women and girls well and keep them well. This is amply proved by the case of Miss Eva MacKinnon, Glammis, Ont., who says: "As a school girl I grew very pale and would take dizzy spells and sometimes vomiting. My condition was such that I was not able to attend school regularly, and my mother was very much worried about my condition. Finally she decided to give me Dr. Williams' Pink Pills and I took these for a considerable time, gradually gaining strength until I was perfectly well. It is some years since I took the pills and I have enjoyed the best of health, and I am certain pale, sickly girls will find new health if they give Dr. Williams' Pink Pills a fair trial."

You can procure Dr. Williams' Pink Pills through any dealer in medicine or they will be sent you by mail at 50 cents a box or six boxes for $2.50 by writing direct to The Dr. Williams' Medicine Co., Brockville, Ont.

Increase In Alberta's Coal Output.

Alberta's coal production for 1920 will be 30 per cent. in excess of last year's, it is now estimated by the government mines branch. A total output of well over 6,500,000 tons is expected by the end of the year as compared with 5,022,412 tons in 1919. There has already been mined for the nine months of this year to the end of September, a total of 4,750,964 tons, the output for September alone being 618,093 tons.

How He Knew.

During a discussion on music a boy mentioned that he was able to recognize only one tune, the National Anthem.

When asked how it was that he knew that particular tune, he replied that it was because when it was played everybody stood up.

Catarrhal Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure Catarrhal Deafness, and that is by a constitutional remedy. HALL'S CATARRH MEDICINE acts through the Blood on the Mucous Surfaces of the System. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing may be destroyed forever. Many cases of Deafness are caused by Catarrh, which is an inflamed condition of the Mucous Surfaces.

ONE HUNDRED DOLLARS for any case of Catharrhal Deafness that cannot be cured by HALL'S CATARRH MEDICINE. All Druggists 75c. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

General Dairy Profits

Greater Average Production Competition For Dairymen.

For the third year in succession, the Saskatchewan Dairy Association, in conjunction with the Dairy Branch of the Saskatchewan Department of Agriculture, is again conducting a Greater Average Production Competition. Eight cash prizes of the aggregate value of $175, are offered as follows: First, $50; second, $40; third, $30; fourth, $20; fifth, $15; sixth, $10; seventh and eighth, $5 each.

These are to be awarded to the owners or proprietors of herds of five or more cows on the basis of the average butter fat production of whole herds for the twelve months ending December 31, 1920. To be eligible for a prize in this competition competitors must keep a record for at least six months of the year of the production of their herds in conformity with the rules laid down in the system in use by the Dairy Division, Ottawa, viz., they must weigh the milk of each individual cow three days each month, and have each cow's milk tested for butter fat content once each month, as required by the testing regulations. Forms for the keeping of records and full information regarding the work are supplied free of charge to dairymen in any part of the province.

The Dairy Commissioner for Saskatchewan, Mr. P. E. Reid, believes that the regular testing of individual cows would probably prove the most valuable feature of herd management that could be adopted. Large individual production means economical production. The object of this competition is to develop higher average production in Saskatchewan herds which will result in greater profits through more economical production.

Steered By Screws.

Its rudder disabled by a storm, the steamship "Vancouver" was navigated for the last 1,600 miles of the way from Bermuda to Queenstown, Ireland, recently, by means of its twin screws.

Restaurant For Men.

There is a restaurant in London for men only, with a private chapel on the premises. It is in Pilgrim street, almost under the shadow of St. Paul's Cathedral. In a large room decked with pictures, but otherwise furnished with monastic severity, one may lunch well and reasonably, but only on fish and eggs if it happens to be Friday.

SHORT OF BREATH Could Hardly Walk Without Resting.

When you go to a physician to be examined for any heart-trouble one of the first questions he asks is: "Are you short of breath?"

Now, when the heart becomes affected there ensues a feeling of a choking sensation, a shortness of breath, palpitation, throbbing, irregular beating, smothering sensation, dizziness and a weak, sinking, all-gone feeling of oppression and anxiety.

On the first sign of the heart becoming weakened or the nerves unstrung Milburn's Heart and Nerve Pills are just the remedy you require. They regulate and stimulate the heart, and strengthen and restore the whole nerve system.

Mr. Stephen Crouse, East Clifford, N.S., writes:—"I suffered for five years with heart trouble. I could hardly walk from the house to the barn without resting as I used to get so short of breath. Doctors could not help me. My wife told me to get a box of Milburn's Heart and Nerve Pills and I felt better after taking them; three boxes made me quite well. I am now helping my son to work the farm, and can truthfully say I feel like a different man."

Price 50c. a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Queer Boat in South America

Made of Ox Hide and Shaped Like Irregular Tub.

The traveller who penetrates the wilds of South America will take the means of transportation as he finds them and be well enough satisfied if they get him where he wants to go. If there is a river to cross, for example, getting across will be his chief pre-occupation, and he will cheerfully take his chances in a "pelota."

This craft, as Harry A. Franck describes it in The Wide World Magazine, is made of an ox hide, dried in the sun and folded in four divisions like a big sheet of writing paper. When stout cord is passed through loopholes around the edge of the hide, and when this cord is tightened, the ox hide takes the form of an irregular tub, deserving its full name, "pelota de cuero," or leather ball, although actually it is only half of one. Green poles are laid crisscross on the bottom to strengthen the craft.

Swift's Daughter Dies in London.

Word has been received of the death in London of Mrs. Jessie Swift Fernald, daughter of Louis F. Swift, the Chicago packer. She was in London visiting friends. Death was due to pneumonia. During the war she was active in hospital and relief work behind the American lines in France.

Requisite on the Farm.—Every farmer and stock-raiser should keep a supply of Dr. Thomas' Eclectric Oil on hand, not only as a ready remedy for ills in the family, but because it is a horse and cattle medicine of great potency. As a substitute for sweet oil for horses and cattle affected by colic, it far surpasses anything that can be administered.

Wilhelm's Refuge

Ex-Kaiser's Flight Into Holland Was Pre-Arranged, Says German Officer.

The often repeated and often denied statement that the former German Emperor William came to Holland with the pre-arranged consent of the Dutch Queen, Wilhelmina, is now made by one of the German officers, Lieut. Count Detif Moltke, who said he himself accompanied the Emperor from Spa to Amerongen.

Moltke's article in the Journal of the National Fund of German soldiers, reprinted in the Dutch press, says that the Dutch Consul in Brussels, warned his Government on the night of November 10, 1918, of William's plan, and the Emperor, by telegraph, asked permission of the Queen to enter her country.

On arrival in Holland, William was informed that the Queen had put Bentincks Castle at his disposal, asserts Moltke.

A Boon for the Bilious.—The liver is a very sensitive organ and easily deranged. When this occurs there is undue secretion of bile and the acrid liquid flows into the stomach and sours it. It is a most distressing ailment, and many are prone to it. In this condition a man finds a reliable remedy in Parmelee's Vegetable Pills, which will speedily correct the disorder.

Where Scenery Runs Riot

Pick Flowers in December at the Pacific Coast.

How would you like to pick flowers from your garden in December? Well, you can at the Pacific Coast in a climate so mild and temperate that it keeps you guessing when fall ends and winter begins; where scenery runs riot and golf is played on the finest green courses every day in the year; where you may hunt, fish, boat, ride or motor on roads winding past towering mountains, rivers and lakes with ever changing scenery.

Rent a beautiful bungalow for the season or stay at one or both of the magnificent hotels, the Hotel Vancouver of that city or the Empress Hotel in Victoria.

Viewing the majestic Canadian Rockies from an observation car on either of the two beautifully appointed daily Canadian Pacific trains on this line is a sight that refreshes and leaves memories for years to come.

Illustrated literature and particulars will be gladly given by any Canadian Pacific Representative.

R.C.M.P. For Herschel Island.

The Royal Canadian Mounted Police are getting ready to send an expedition overland for about a year to Herschel Island, the Arctic whaling, trading and exploration base. They will go by way of Fort McPherson. Several policemen will make the trip from Dawson with dog teams. Preliminary shipments of supplies that will be needed along the road, started from Dawson several days ago. The party will take mail arriving at Dawson from the coast or other points.

Minard's Liniment For Diphtheria.

Steel Works For Manitoba.

A new era in the manufacturing of steel in Canada was introduced with the opening of the new open earth furnaces at Selkirk, by the Manitoba Rolling Mill Company. The new furnace has a capacity of from sixty to ninety tons of steel per day and additions will be made as business warrants them.

HELPS A WEAK THROAT STRENGTHENS THE VOICE CURES BRONCHITIS

By Breathing the Healing Balsams of Catarrhozone You Are Cured Without Using Drugs.

You breathe through the Catarrhozone inhaler medicated air that is full of healing, soothing balsams, full of piney antiseptic essences that resemble the air of the pine woods in the Adirondacks. This piney vapor has a truly marvelous action on weak throats. It brings strength and health to the bronchitic, stops that hacking, irritating cough, prevents hoarseness and difficult breathing. You can't find anything for weak-throated people on earth more beneficial than Catarrhozone. It means heaven on earth to man that has had bronchitis, catarrh or throat irritation. You will realize this the first time you use Catarrhozone which is a scientific preparation specially designed for diseases of the nose, throat and bronchial tubes. Get the large size, it lasts two months, costs $1.00; medium size, 50c; sample size, 25c. All storekeepers and druggists or the Catarrhozone Co., Kingston, Canada.

How Much to Marry Upon.

Out in Indiana a justice of the peace, who specializes in marrying, said a salary of $10 a week was enough for a couple to marry upon. The pastor of the local Methodist Episcopal Church thinks different, saying the salary should be at least $900 a year. Three other married men said no one should marry on less than $50 a week, and a woman who was interviewed warned young couples it always would require $10 to $15 a week more than they estimated they needed to live.

Canada's Position Good.

Basically, Canada's commercial position is a sound one and general business is far from being bad. The money actually realized from large crops is having a beneficial effect. The labor situation appears for the most part to be very much improved, states a report recently issued by the Royal Bank of Canada.

The Oldest Man Living.

If asked about his corns would say they didn't bother him because he always used Putnam's Corn Extractor. For fifty years "Putnam's" has been the favorite because painless and sure. Try only "Putnam's," 25c at all dealers.

The Perfect Man.

A young king once asked a sage what kind of person he considered was the most perfect, whom it would be wise if all men would imitate.

"The most perfect man," said the wise old man, "is not he who seems most perfect, but he who not only is able to discover that he is imperfect, but also strives through life to amend his faults as much as possible."

An English County's Precaution.

The county of Kent, England, have adopted the Swiss Method of disinfection for foot and mouth disease. In certain infected areas the feet of all passengers, the tires of all motor cars, and the hoofs of all animals, are brushed wih disinfectant before entering certain roads.

Navigation of Rhine Extended.

Swiss engineers have perfected the plans for extending navigation of the Rhine from a point twelve miles above Basel to Lake Constance by using locks from which hydro-electric power will be obtained.

Keeps Baby's Skin Healthy

IF every mother could only realize the danger which lurks in the neglect of chafing and skin irritations she would not take chances on being without Dr. Chase's Ointment to apply after baby's bath.

It arrests the development of eczema and makes the skin soft, smooth and velvety.

Local News Notes

A first class skate sharpener has been installed at Morrison and Johnston, Ltd.

All Ladies interested in St. Cyprians Annual Sale of work and tea to be held Dec. 4 th. Will kindly leave Donations at the rectory or with Mrs. Parsons.

Electric Washing machines $123.00 and up at Morrison and Johnston, Ltd.

On Thursday afternoon the school assembled to commemorate the signing of the Armistice, Nov. 11th, 1918. The meeting opened with the singing of O Canada. Speeches, appropriate to the day were delivered by the Rev. A. T. Barr, Mr. J. McDowell, Sec. G.W.V.A. and the Rev. Hollingsworth. "In Flanders' Fields" was sung by Prof. Touche. The meeting was brought to a close by the singing of the National Anthem.

Everybody come to the lake north east of town tonight (Wednesday) Good Ice.

Students Electric Lamps in different Styles at Morrison and Johnston, Ltd.

John Lavery, who has been farming in the district for some years, leaves in a few days for Ireland, where he will engage in farming. His auction sale on Saturday was well attended and property brought fairly good prices.

The A. M. Campbell block is being pushed to completion despite the wintry weather, and the brick work will be completed this week.

Three new milch cows for sale. Apply A. Gilmour, Lacombe.

The low and uncertain price of wheat is causing some depression among the farmers, and the general impression over the country is that it will go still lower. Many farmers who last year were strong objectors to the Wheat Board control of prices, are agitating for the reestablishment of that board. The government, however, is of the opinion that wheat price is this year being determined by the very good law of supply and demand. There is not the demand for wheat this year that there was last, therefore the price suffers.

A well assorted line of suit cases and club bags at Morrison and Johnston, Ltd.

Three new milch cows for sale. Apply A. Gilmour, Lacombe.

With cattle selling anywhere from 3 to five cents a pound, it seems to us that the farmers have a real grievance just now. Of course in time this will have the effect of lowering other commodities, but it is painful during the process of readjustment.

Edmonton printers are out on strike for a raise in wages to $1.10 per hour, and a 48 hour week until May, when the hours of a week's labor will be 44 hours.

The first Assembly Club dance will be held in the Comet Theatre on Friday evening next.

Rev. H. Assiter, left on Monday for his home in Leesburg, Penn., after a week's visit with Lacombe friends.

The municipal rink is flooded, and it is the intention to have it opened for skating before the end of the month. At present the young folks are enjoying splendid skating on the lakes.

Boy's Bob Sleighs at Morrison and Johnston, Ltd.

Some good bargains in Dressers and stands at Morrison and Johnston, Ltd.

Three new milch cows for sale. Apply A. Gilmour, Lacombe.

The regular meting of the Arbordale U. F. A., will be held at the home of Mr, and Mrs. B. S. Burke on Friday evening, Nov. 26. There will be an entertainment in the form of a "Shadow Social," to be followed by a dance after supper. H. A. Malcolm, of Innisfail will address the meeting on "The Farmer's Political Movement." All are invited to come an have a good time.

The concert to be held in the St. Andrew's church on Friday, Nov. 26 under direction of Professor Touche is one of unusual interest.

This is one of the night's that can be spent profitably listening to our own local talent, many of whom are equal to if not better than most so called professionals.

The sheep breeders of the district will hold a demonstration, followed by a banquet, on December 9th and 10th.

One effect of the low price of produce in Alberta, is the drop in the price of farm lands. During the last two weeks many listings have been reduced ten to twelve dollars an acre throughout the district.

There will be a Masquerade Dance in the Spruceville Hall on Friday, December 10. Prizes will be given for: The Best Dressed Lady; The Best Dressed Gentleman; and the Best Comic costume.

The music for the dance will be 1st class. Ladies will please bring refreshments. Come and have a good time.

High School Concert

The Lacombe High School concert, held in the Presbyterian Church last Friday evening, was a decided success, the church being packed to the doors. Kathleen Reid, President of the High School Literary Club, presided. The programme was opened with a piano solo by Audrey Brown lowed a Scotch dance by four of the high-school girls: Gertrude Gourley, Margaret Calder, Jean Compbell, and Nina Bagley. Considering the short time in which the girls had to prepare the dance, they deserve great credit for the clever way in which they performed. Nelson Gourlay then gave a vocal solo, which was encored. Winnifred Winter then obliged with a vocal solo "My Rosary." She sang it in French and for an encore repeated the song in English.

Intermittently between these items which was greatly enjoyed. Then fol- Captain Cameron of the Extension Department of the University of Alberta entertained the audience with a varied programme of instructive moving pictures. By the response of the audience they were evidently much appreciated.

The programme finished with the singing of the "Marseilles" in French and "O Canada" by the combined High School Choir.

As a result of the general support of the community, the High School were able to apply $150 on account of the piano which they recently purchased.

Curling Notes

All wishing to skip during the season 1920 will kindly hand their names to the secretary with the personel of their rinks; each rink to consist of one experienced member and two new members, subject to the approval of the Executive committee. Immediate attention will greatly assist in making an early start with the roarin game.

Great Entertainer

New Program

Arrangements have been completed for the appearance of Leslie Grossmith, the famous English entertainer and musician, who will give his unique entertainment on

Friday, November 26, at the Opera House

It is only on rare occasions we are visited by artists of the caliber of Mr. Leslie Grossmith and it is to be hoped all will keep the date as clear as possible from conflict ing engagements and give him a reception worthy of our people.

The nature of the entertainment offered is difficult to describe as he is an artist of great versatility, appearing as humorist, actor, pian ist and composer. The name of Leslie Grossmith is well known throughout the world, and few names are better known in the English speaking language. A cordial reception should await him.

AT THE REX

A new Mary McLaren picture always is welcome. The Rex Theatre announces for Wednesday and Thursday the latest Universal production starring this American beauty of the Screen. It is called "The Forged Bride" and is based on the story of J. G. Aawks, "Sins of the Father," and deals with life on both the seamy and velvet sides.

Naximova the brilliant Russian star, in her newest production "Stronger than Death," is announced by the management of the Rex Theatre as the special attraction on Friday and Saturday next. The presentation of this great artiste in a great photodrama is described as a particular treat for motion picture goers. Prices are 50c. nad 25c.

"The Spite Bride" a Selznick Picture starring Olive Thomas, comes to the Rex Theatre on Monday and Tuesday next. It's simply a knockout—the best thing that the screen has seen in many moons. It has snap, dash and zest; a human picture of human people presented in a human way. And Olive Thomas was never better in her life. She is the essence of youth—youth at its finest—with its simplicity grace, charm and wistfulness.

Quit Laxatives, Purges; Try NR

NR Tonight — Tomorrow Feel Right

It is a mistake to continually dose yourself with so-called laxative pills, calomel, oil, purges and cathartics and force bowel action. It weakens the bowels and liver and makes constant dosing necessary.

Why don't you begin right today to overcome your constipation and get your system in such shape that daily purging will be unnecessary? You can do so if you get a 25c box of Nature's Remedy (NR Tablets) and take one each night for a week or so.

NR Tablets do much more than merely cause pleasant easy bowel action. This medicine acts upon the digestive as well as eliminative organs—promotes good digestion, causes the body to get the nourishment from all the food you eat, gives you a good, hearty appetite, strengthens the liver, overcomes biliousness, regulates kidney and bowel action and gives the whole body a thorough cleaning out. This accomplished you will not have to take meucine every day. An occasional NR tablet will keep your body in condition and you can always feel your best.

Try Nature's Remedy (NR Tablets) and prove this. It is the best bowel medicine that you can use and costs only 25c per box, containing enough to last twenty-five days. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

Lunch at Noon **No Reserve**

C. F. DAMRON - Auctioneer

Lovely Regions in the Canadian Rockies

If the beauty of the Canadian Rocky Mountains, north of the line between the Dominion and the United States, is not the grandest in the world it is certainly lovely as any anywhere, and it is the loveliest on the American continent. The glory of the European Alps is dimmed by the towering snow clad peaks of the Rockies. Travellers on the Canadian Pacific Railway from Calgary, through Banff, Lake Louise, Field and Glacier on to the Pacific Coast view a land in which they feel themselves transferred to an earthly paradise.

The gigantic heights, the snow capped peaks, the rugged boulders, the pines growing in the sand and rock crevices up as far as the snow line are amongst the most impressive features of the Rocky Mountains. How the builders of the C.P.R. ever were able to excavate their way through this region is one of the wonders of the world.

Visitors whose time is limited should anyway explore a portion of the Rocky Mountain region and stay off at Banff and Lake Louise, points where the C.P.R. has built luxurious hotels. Besides, good roads radiate from these spots and automobiles or ponies can be engaged to bring the tourist right into the heart of the best scenic regions.

Banff is situated at an altitude of 4,521 feet in the Canadian National Park. This Park is a natural reservation of 5,732 square miles embracing part of the Bow river valley, numerous small rivers and several towering mountain ranges. Banff National Park is the largest in the world. Caskade Mountain, 9,825 feet high, looks down on Banff Springs Hotel, and the hotel looks down on the Bow river valley. Buffalo still roam in the Park, and the Zoological Garden contains many Canadian wild animals. Banff Museum possesses many valuable objects of curiosity. In the Museum there is a visitors' book in which a space is provided for remarks on Banff. Looking over the book, one is interested enough to take a note of some of the opinions on Banff. Here are a few:

"Banff is unexcelled for beauty."
"Oh, would that my tongue could utter the thoughts that arise in me."
"Almost broke, but happy. Banff to me is just the place to spend a lovely holiday. Let us be happy while we can."
"What more can anyone desire?"
"Cannot be beaten."
"Beyond description."

"If I do not go to heaven when I die, I would like to go to Banff next to heaven."

"Here one may look upon the face of God."

Seaplanes are employed to give visitors to Banff unusual thrills this year. They are being used in preference to aeroplanes because the lakes in the mountains offer landing and take-off stations for them, whereas such facilities are not available for the ordinary machines. The lake at Banff has been secured as the base of operations, and flights over the mountains and to other isolated lakes are projected.

The lake known as Lake Louise is a small sheet of water surrounded by mountains on all sides but one, and on this open side stands the Chateau Lake Louise looking out on the lake and the heights above. The water in Lake Louise at different periods of the day puts on the most wonderful hues of green which baffle description. Some of the mountains at Lake Louise are Saddleback 7,893 feet high, Fairview 9,000; Lefroy 11,220; Victoria 11,355; Whyte 9,776; Big Beehive 7,430. Swiss guides conduct mountain climbing parties at Lake Louise. Ponies are largely used for climbing the trails on the mountain sides. From the Chateau Lake Louise it is a nice climb to the Lakes in the Clouds, and this climb can be easily done on foot by any athlete lady or gentleman. Among the Lakes in the Clouds one may enjoy tea in the comfortable log cabin erected for the comfort of the climbers.

There is opened to tourists this summer a new resort of rustic design in the Canadian Rockies on the sandy beaches of Lake Windermere, the loveliest warm water lake in British Columbia. Lake Windermere is situated about 170 miles south of the Main Line of the Canadian Pacific and is reached from the main line at Golden, or from Colwalli on the Crow's Nest, the station being Lake Windermere.

The scenery of this region combining as it does, pastoral softness with rugged mountain grandeur will attract visitors from all parts and become a favorite playground.

The summer visitor will find here everything that he could wish, bathing, boating, riding on mountain ponies to great Canyons and Glaciers, golf, automobiling, fishing and big game hunting in season.

The Canadian Pacific has erected a number of cabins fully equipped with every convenience of the modern home. An auto road from Banff is in the course of construction by the Dominion Parks Board.

Is the League Dead?

The Republican party having scored an overwhelming victory in the United States Presidential elections on a platform of opposition to the League of Nations fathered by President Wilson, confident assertions are made throughout the big republic that the League is dead.

Speaking on the night of the election when it became apparent that the Republicans had swept the country, Senator Boran, of Idaho, a strong opponent of the League, declared that he regarded the election "as the triumph of nationalism and the death of the League of Nations." Two days later, on November 4, in his first speech as President-elect, Senator Harding said "the Versailles League of Nations is now deceased."

Do these prominent American politicians really believe that because the United States disapproves of the covenant of the League, and refuses to become a party of it, that, therefore, all the other nations of the world will abandon the League? Surely not. Some forty naions have already joined the League of Nations entered into an offensive and defensive alliance, while another group entered into a similar arrangement, the natural and inevitable result being that each group sought to outdo the other in the piling up of armaments, and the tax-burdened people of each were made to bear the load upon the specious plea that it was necessary that they should maintain great armies and navies because the others were doing so.

The League of Nations was designed to protect all; to provide a guarantee of peace should any one nation seek to act aggressively and unjustly against another. There is nothing aggressive about the League; it is purely defensive—a policeman of the world. And it is inconceivable that the nations of the world will "scrap" this institution of mutual protection merely because the United States decides to stay out of this common world brotherhood.

Undoubtedly, the covenant of the League is not perfect. How could it be expected to be arrived at, as it was, during the heat of aroused war-time passions. But no human legislation or institution set up by mere man is perfect, and certainly not in its initial stages. There was never an Act of Parliament or Congress passed that did not later call for amendment in the light of actual experience. The League covenant is not like the laws of the Medes and Persians, unchangeable. It will be altered and improved and strengthened as the years pass. But it provides common ground upon which all nations and peoples can meet, and through goodwill and co-operation it can be extended and bettered.

The recent election in the United States may mean that the League is dead so far as that country itself is concerned, although even that is doubtful. Taught for over one hundred years that they should have no entangling alliances with, or take part in the quarrels of European nations, the American Government and people strove mightily to keep out of the Great War. But the world today with its wireless, airships, submarines and so many time and distance annihilating devices, is not the world of George Washington's time. No nation can live unto itself alone, and this the United States was finally forced to admit by its entry into the war.

The American people may still desire to keep aloof and free from the difficulties of the Old World, and decline to accept responsibility for the order and good government of the world at large, but they will discover sooner or later that such isolation is not possible. As a great creditor nation, with Europe owing it many billions of dollars, the United States is deeply concerned in the restoration of peace and order in Europe and in the maintenance of peace there. Removed though it be by some thousands of miles of sea from Europe, the Great War disclosed the fact that the oceans of the world do not constitute an impregnable defence. In the days of small and slow-going ocean vessels, the United States could afford to ignore war-like preparations in Europe. It can do so no longer. Furthermore, as a nation engaged in trade and commerce all over the world, the United States, and every interest in that country, is vitally concerned in the establishment and maintenance of stable political conditions everywhere.

The League of Nations is not dead. Certainly, no party election in the United States can kill it. Its form may change with the passage of time, but the principles upon which it is founded must live if this old world is not again to be plunged into the unspeakable horrors of universal warfare on an even more gigantic and destructive scale than prevailed between August, 1914, and November, 1918.

When Coal Fires Were Illegal

Nobility in Thirteenth Century Objected to Smoke Nuisance.

Coal has not always been so valuable a commodity as it is to-day. In the early days of the industry there was a violent prejudice against coal in many quarters, and the miners were often compelled to down tools against their will! Henry III., in the thirteenth century, began by giving the people of Newcastle the Royal permission to sell the new fuel and the manufacturers of the time immediately adopted it. But the nobility of the countryside made so many complaints about the "smoke nuisance" that the King withdrew his permission. One of his successors, however, not many years later, restored the old rights to Newcastle, and also granted permission to the Derbyshire coalfields to begin work, but the fortunes of the trade varied from reign to reign. Even Queen Elizabeth, so broad-minded in many things, could not get rid of the idea that coal was bad for the health of the country, and whenever the M.P.s came up to London for the sittings of Parliament no one in the city was permitted to light a coal fire!

In Maidenhood, Womanhood and Motherhood

London, Ont.:—"For many years Dr. Pierce's Favorite Prescription has been my most favorite medicine. I have taken it for the ailments pertaining to womanhood and before and after motherhood, and it always proved excellent. I have also recommended 'Favorite Prescription' to many friends who have taken it with good results. It is the best medicine I know of today for women or girls who are weak and suffering."—MRS. WM. STEEL, 179 Richmond St.

SAVED HER LIFE

St. Catharines, Ont.:—"I was in a very miserable condition when I first started taking Dr. Pierce's Golden Medical Discovery and Dr. Pierce's Favorite Prescription sixteen years ago. I suffered and was extremely emaciated and weak. Although I was a young woman my doctor thought I was going through the critical stage of life, but after using these remedies my strength returned, another child came and from that time on my health was perfect and my weight increased. I really believe that Dr. Pierce's remedies saved my life and I shall always praise them as long as I live."—MRS. ELIZA OVERHOLT, 43 Beach St.

Favorite Prescription should have the full confidence of every woman in Canada because it contains no alcohol and no narcotic. Dr. Pierce knew, when he first made this standard medicine, that whiskey and morphine were injurious, and so he has always kept them out of his remedies. Send 10c to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package Tablets.

THE FALL WEATHER HARD ON LITTLE ONES

Canadian fall weather is extremely hard on little ones. One day is warm and bright and the next wet and cold. These sudden changes bring on colds, cramps and colic, and unless baby's little stomach is kept right the result may be serious. There is nothing to equal Baby's Own Tablets in keeping the little ones well. They sweeten the stomach, regulate the bowels, break up colds and make baby thrive. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Siberian Alfalfa in Peace River Country

Dakota Man Finds Northern Alberta Suitable for Diversified Farming.

N. E. Hansen, of Brooklea, South Dokato, is back from a summer's sojourn in the Peace River country, where he has been making investigations into the question of agriculture in northern climes.

He is specially interested in a new type of alfalfa clover which he has imported from Siberia and which can be sown with grains in the spring, yielding a paying crop the following year. This, it is claimed by Mr. Hansen, will supplant summer fallowing and will provide the soil with root matter which will overcome soil drifting.

Siberian sheep are another of Mr. Hansen's new ideas, and he believes they will stand the utmost rigors of a northern winter. What he has seen in the Peace River country has convinced this visitor that the top of Alberta is admirably suited to diversified agriculture and that some of the experiments he has been making with Siberian types will go a long way to solve the problem of the northern farmer.

Cattle In Alberta.

It is stated on official authority that there are at the present time 1,100,000 head of cattle in Alberta. A large percentage of these are of the dairy breed. An interesting feature of statistics recently compiled is the fact that approximately 200,000 head of cattle are sold each year for slaughter or shipment.

A pleasant medicine for children is Mother Grave's Worm Exterminator, and it is excellent for driving worms from the system.

Successful men owe most of their success to the opposition they meet with.

If riches don't bring happiness, they have at least one advantage over poverty—they don't prevent it.

Manitoba Drainage System

3,200,000 Acres of Swamp Land Brought Under Cultivation.

Since the inauguration of the drainage schemes in Manitoba approximately 3,200,000 acres of land have been brought under cultivation. This land was formerly useless from an agricultural standpoint.

Fifty miles of dredge channels have been constructed this year, costing $140,000. Thirty miles of these channels are in the Sparling district, and 20 miles in Morris municipality, Southern Manitoba. They are constructed to take care of flood waters in the spring and also for draining marshes, and will assist materially in bringing waste land under cultivation.

In the Sparling district alone 72 sections of land have been made available for cultivation. Cultivated land is relieved from the danger of spring flood.

Education and Wealth.

When one considers that the increase of economic wealth, which is industrial production, can in the last analysis only be provided for by the growth of intellectual capacity, which is education, the realization must follow that eventually, and at no very distant time, the teaching profession will regain its rightful prestige and will be free from many of its temporary handicaps—President Hopkins, Dartmouth College.

Miller's Worm Powders seldom fail. They immediately attack the worms and expel them from the system. They are complete in themselves, not only as a worm destroyer, but as a highly beneficial medicine for children, correcting weak digestion and restoring the debilitated system to healthfulness, without which the growth of the child will be retarded and its constitution weakened.

Increase In Revenue.

The revenue from the Department of Lands and Forests for Ontario will amount to three-quarters of a million dollars more this year than last. The amount of last year's revenue was $1,992,000.

Minard's Liniment For Garget in Cows.

Curfew For Calgary.

Whether a curfew law shall be passed that will require children of 15 years and under to be off the streets and out of public places at 10 o'clock nightly unless accompanied by parent or guardian, will be the subject of a plebiscite that will be taken at the municipal elections in Calgary in December.

To Cure Drunken Drivers.

The 900 members of Calgary's Auto Club have gone on record unanimously as favoring a $500 fine for drunken drivers of automobiles, the impounding of their cars and the suspension of their licenses.

In Serbia, the husband is responsible not only for his wife, but for his unmarried sisters.

Cause of Early Old Age

The celebrated Dr. Michenhoff, an authority on early old age, says that it is "caused by poisons generated in the intestine." When your stomach digests food properly it is absorbed without forming poisonous matter. Poisons bring on early old age and premature death. 15 to 30 drops of "Seigel's Syrup" after meals makes your digestion sound. 10

SUNDAY-SCHOOL LESSON

LESSON FOR NOVEMBER 21.

THE TWELVE SENT FORTH.

Having set forth the laws of the kingdom in the sermon on the mount and his power to administer the affairs of the kingdom in the miracles of the eighth and ninth chapters, Matthew now sets before us the methods which the king adopted in the propagation of the kingdom. The following divisions of the chapter suggest the dispensational aspects of the lesson:

I. Instructions Bearing Immediately Upon the Apostles' Work to the Death of Christ (vv. 1-15).

In strictness of interpretation these teachings have no application to any later period.

1. The ministers chosen (vv. 1-4). These 12 humble men were chosen and commissioned for the work of the propagation of the kingdom. They were not commissioned with church truth. These 12 stood in a peculiar relation to Israel.

2. The sphere of their mission (vv. 5, 6). They were only to go to Jews, and that to respectable ones. They had no message for gentiles or even Samaritans. After Pentecost this sphere was widened (see Luke 24:46-49; Acts 1:8). This would be a strange restriction to place upon ministers today, since the "middle wall of partition" was broken by the death of Christ.

3. Their message (v. 7)." The kingdom of heaven is at hand." This meant that the promised kingdom of Israel was at hand, that Jesus Christ, the promised king, was present and ready to set up his kingdom if they were willing to have it. This differs wid ly from the message of their ministers today.

4. The supernatural authentication of their mission (v. 8). They were clothed with power to work wondrous miracles. These wonderful works were really done by the twelve. Where is the minister today who is so foolhardy as to try to fulfill this?

5. Their maintenance (vv. 9, 10) They were to make no provision for their support, but to depend wholly upon the Lord who sent them.

6. Responsibilities of those to whom the message was delivered (vv. 11-15). Upon entering the city or town they were to inquire for a reputable place to stay. Into that home they were to bring peace. If the people would not receive them or hear their message, they were to pronounce judgment upon them, and the turning of the Lord from them symbolized by the ministers wiping the dust from their feet when turning from the people who had rejected their message.

II. Instructions Concernjng the Testimony from Pentecost Onward (vv. 16-23).

After Pentecost, testimony for Christ would be fraught with great danger. Both Jews and gentiles would assail the messengers with the most bitter persecutions. They were scourged in the synagogues before heathen magistrates. Instead of bringing peace intothe homes they brought divisions of the fiercest kinds among families. In their defense they were to rely upon the Holy Spirit to aid them. These conditions were literally fulfilled in the period from Pentecost to the destruction of Jerusalem. Since the fall of Jerusalem no one has ever been scourged in a synagogue. Verse 23 seems to carry the work forward to the time of the preaching of the gospel of the kingdom in the tribulation times. The Lord's coming then is so speedy that their testimony is cut short.

III. Teaching Applicable in All Ages (vv. 24-42).

The disciple has the position of oneness with his master. He is to courageously declare the whole counsel of God, though most violently opposed, knowing "that all things work together for good to them that love God." Though their testimony be met with the most bitter opposition, they should not be surprised or discouraged, for so completely is the Lord identified with his disciples that he accepts treatment of the disciples as treatment of himself.

Would Control Own Resources.

One of the biggest issues in Alberta is that of provincial control of natural resources, but Premier Stewart, during Hon. Arthur Meighen's visit, refrained from raising this question, arguing that the Prime Minister was not in a position to give a definite answer to questions. The province is waiting for the Dominion Government to make the next move.

Corns cause much suffering, but Holloway's Corn Remover offers a speedy, sure and satisfactory relief.

Nome Has Only 200 Inhabitants.

Nome, Alaska, which during the gold rush twenty years ago had a population estimated at 15,000, was left with but 200 inhabitants when the steamer Victoria, the last boat of the season sailed from here. The Victoria brought over 500 passengers from Alaska, 350 of whom were from Nome. Many of these declared they would not return.

Thirteen is always an unlucky number to have at a dinner—when there is only dinner for twelve.

WHY EXPERIMENT?

Food scientists claim that the leavener is largely responsible for the flavor, texture and wholesomeness of your home baking. That on no other one ingredient does so much depend. It is important, therefore, to use a baking powder that you know possesses the necessary leavening qualities.

MAGIC BAKING POWDER

Contains No Alum

and is the only strictly high class baking powder in Canada selling at a moderate price. Its reputation is built on purity and highest quality.

The only well known medium priced baking powder made in Canada that does not contain alum and that has all its ingredients plainly stated on the label.

Made in Canada

Taking Our Own Advice.

They are telling a story of a Toronto judge who seldom missed an opportunity while on the bench of advising people to make their will so as to save annoyance and expense in the distribution of their property after death. In the course of time the judge himself died, and then it was discovered that he himself had made no will. He had been so busy giving good advice to others that he had neglected taking it himself. His neglect was very human. So many people exhibit such zeal for regulating the conduct of others that their own needs are overlooked. Nevertheless, the fact that a man fails to take his own advice is not necessarily an evidence that it is not good advice.—Woodstock Sentinel-Review.

"Pape's Diapepsin" for Indigestion

"Pape's Diapepsin" is the quickest, surest relief for Indigestion, Gases, Flatulence Heartburn, Sourness, Fermentation or Stomach Distress caused by acidity. A few tablets give almost immediate stomach relief and shortly the stomach is corrected so you can eat favorite foods without fear. Large cases costs only 60 cents at drug store. Absolutely harmless and pleasant. Millions helped annually. Largest selling stomach corrector in world.

Lightning Likes Loamy Soil.

Lightning strikes loamy soil most frequently according to recent investigations. Then, in diminishing order sandy soil, clay, and chalk. In fact loamy soil is struck twenty-two times as often as chalk.

SUFFERING OF YOUNG WOMEN

This Letter Tells How It May be Overcome—All Mothers Interested.

Toronto, Ont.—"I have suffered since I was a school girl with pain in my left side and with cramps, growing worse each year until I was all run down. I am a children's nurse, and I was so bad at times that I was unfit for work. I tried several doctors and patent medicines, but was only relieved for a short time. Some of the doctors wanted to perform an operation, but my father objected. Finally I learned through my mother of Lydia E. Pinkham's Vegetable Compound, and how thankful I am that I tried it. I am relieved from pain and cramps, and feel as if it has saved my life. You may use my letter to help other women, as I am only too glad to recommend the medicine."—JEAN KENT, 42 Blamford Ave., Toronto, Ont.

Girls who are troubled as Miss Kent was should immediately seek restoration to health by taking Lydia E. Pinkham's Vegetable Compound.

Those who need special advice may write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. These letters will be opened, read and answered by a woman and held in strict confidence.

MOTHER!

"California Syrup of Figs" Child's Best Laxative

Accept a "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless physic for the little stomach, liver and bowels. Children love its fruity taste. Full directions on each bottle. You must say "California."

W. N. U. 1342

Strange Leases.

For weird leases London would be heard to beat in some instances, says a correspondent. He dealt with houses lately which were for sale and found that the ground landlord was the Duchy of Cornwall, the leaseholder paying an annual ground rent of fourpence! This fourpence was sent every year in an envelope which cost twopence, and it cost the Duchy twopence to aeknowledge receipt! "But there is a stranger case in the north of London," he said, "some houses there are leased until the death of the Duke of Connaught. There is no other date attached to the document."

Minard's Liniment For Distemper.

Some writers never disturb the truth that lies at the bottom of the inkwell.

The Beggar's Hoard.

A beggar woman eighty years old, at Lyons, France, has amassed a bank account of several thousand pounds, which, along with railway shares, treasury bonds, and a stock of ready money, was discovered in her lodgings. The hoard was unearthed from a mass of rags and mouldy food by sanitary officials, called in by the neighborhood in the interests of public health.

British Land Girls.

The interview with Mr. Thomas Walker on the subject of the immigration to this country of British land girls opens up a possibility of a source of supply of labor for the farms which has seen its beginnings in the fruit picking activities of our own girls in this province.—Victoria Colonist.

WAGSTAFFE'S Celebrated MINCEMEAT

"The Mincemeat With A Punch"

It has all the old-time flavor, made from a celebrated English Formula that has been handed down from generation to generation. TRY IT. It may cost a few cents more but it is worth it as it is made from the FINEST ORIENTAL FRUITS AND SPICES.

ASK YOUR GROCER FOR IT

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Headache, Neuralgia, Toothache, Earache, and for Rheumatism, Lumbago, Sciatica, Neuritis, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all.

Accept only "Bayer Tablets of Aspirin" in an unbroken "Bayer" package which contains complete directions. Then you are getting real Aspirin—the genuine Aspirin prescribed by physicians for over nineteen years. Now made in Canada.

Handy tin boxes containing 12 tablets cost but a few cents. Druggists also sell larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer"

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin mean: Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

From the Diary of A Hudson's Bay Clerk in the Seventies

By O-GE-MAS-ES (Little Clerk).

(Copyrighted)

(Continued From Last Issue)

Making an early start next morning and taking along Pat's traps, we again made for the creeks. We left our canoe at the mouth and struck up stream. An hour's steady tramping brought us to a beaver dam only roughly constructed; a little further up another dam slightly better made, and above these a splendid lam backing up quite a lake of water. Evident the two first dams were only intended to relieve the pressure of high water on the principal one. At the far end of the lake were three large beaver lodges, with hard beaten trails on all sides and trees fallen in every direction, many of these being cut up in short lengths. There were piles of chips and every evidence of busy industry. Patrick's face was a sight, as he estimated there were from forty to fifty or even more beavers resident, and as he had a big debt with the H. B. Company, here was the means to pay it and also the choicest of food for the wife and little ones.

Walking round the lake very quietly, we selected two good stands for watching that evening, as beaver seldom come out before dusk. Then, after a hasty lunch we went further up the stream setting traps in the most likely places. Returning to the beaver village about sundown we very noiselessly took our places, and then followed a long wait. We were both armed alike, double barrel guns of the usual H. B. style, 28 bore muzzle loaders with percussion locks, the barrels being extra heavy, making them suitable for either ball or shot, and loaded at the present time with 3 1-2 drachms of powder, 1-2 oz. of shot, a tight fitting wad and a round bullet on top of all. This combination was a very deadly one at close quarters. At last I noticed the water heave close in front of my stand, and some ripples followed, again, and once again. Then up burst the head of a large beaver, which I immediately shot behind the ear and it at once sunk in some twelve feet of water. Stripping off my clothes and standing like Don Cupid on the bank, I was about to dive after my game, when Patrick appeared, smiling to see my unusual costume. On describing the facts, he told me to dress, and cutting a long dry pole, screwed a gun-worm on the end of it (twisted wire which we all carried for extracting wads), and after some prodding began to turn it and then hauled in. Joy, here was a large fine beaver, and I commenced to dance with delight as it was my first one. It was now quite dusk and we started for camp on the jog, and hearty was the welcome we received on reaching here, and before long we were enjoying a delicate dish from the choicest parts of the beaver, which, and I speak from experience, is very excellent food indeed, something between young pork and lamb.

Next day we were to visit the traps and repeat the watching in the evening. The first trap was not disturbed, but in the second was a beaver, which we soon despatched. This trap was set in a tiny affluent of the creek which was very shallow with a stony bed, cut banks about four feet high, lovely soft moss on the bank, with scattered spruce and birch. As Pat specially looked after the traps, they being his own property, I lit my pipe and snuggled down in the moss for a quiet smoke, while he arranged everything in order and re-set the big double spring No. 4 beaver trap (no small task I can tell you). Nothing more to do now but destroy the traces of human scent; so finally he filled his mouth with water to spurt on the willows by which he was pulling himself up out of the creek. As he had a very hooked nose and round owl-like eyes, the sight of this apparition ascending from the creek, with his cheeks extended at their widest, was too much for my gravity, and I simply yelled with laughter. This so startled Pat that he left go the willows and dropped into his own trap in the creek. Great was the splashing, and what sounded like Indian oaths filled the air. Rendered too weak by laughter to be of much assistance, I crawled to the edge of the bank and surveyed the scene. The chain to the trap allowed about two feet or more play and the Indian was caught fairly by his bare haunch, his costume at that time being breech-clout and leggings. He was in a most furious rage, and, finally giving up all struggles, he sat in the water with a most sulky countenance. After a number of ineffectual attempts, I at last succeeded in releasing him. His dignity was badly hurt, and though two more beaver rewarded our efforts, he sulked all day. When the story was repeated and acted in the lodge that night, his merry wife and boy howled with laughter, while Patrick sat and smoked with a most injured air, and for some days afterwards sat down very gingerly.

After spending several more successful and pleasant days, and securing sixteen beaver for my share of the hunt, it became time for me to return to duty. The hunting being still very good and Pat doing so well with his traps, I decided to go alone. So one fine morning, after loading my small craft with the fur we had killed, also two beaver untouched for the Chief at Cumberland, I shook hands heartily with my late companions who looked sad at the parting. Then stepping cautiously into the canoe, away I went. On reaching the Saskatchewan I had to be extremely careful in navigation as my canoe was loaded to a few inches of the water, also the mighty river was full of drift-wood. I camped that night for the last time beside the mighty river. Well the Crees named it "Kisse-setche-wan-Se-pe," the big, swift flowing river, corrupted by the white man to Saskatchewan.

Paralyzing Blow is Directed at Sinn Fein Finances

Seizure of Funds is Said to be Crippling Rebel Activities.

Toronto.—A special cable from London to the Toronto Star says: Britain's paralyzing blow at the Sinn Fein is directed at its pocketbook, according to the Irish office today. The office declared there was a marked cessation of Sinn Fein activity following bank raids in which records and funds were located. Steps have been taken to choke off the supply of money from America also.

A report of the Sinn Fein Minister of Finance showed £22,607 set apart for the "Self-Determination Fund." It also showed £200,000 (nominally $1,000,000) had been received from America in subscriptions to the Irish Republican Fund. A fund of $2,995,643 was also shown to be on deposit in New York.

Art O'Brien, secretary of the Irish Self-Determination League declared British raiders seized £20 000 from one bank, but that the amount was made good to the Sinn Fein by the banker who had the funds in charge.

Plan Relief Expedition

Will Send Relief to Schooner Ice-bound Off Siberia.

Seattle, Wn.—Nome, Alaska, residents are planning to send a snow sled relief expedition across the frozen Arctic to the trading schooner Polar Bear which is trapped in ice off the Siberian coast, 225 miles from Nome, according to reports received here. Reindeer will pull the sleds.

The Polar Bear has a crew of five men and less than two months' supplies aboard. The boat is believed to be within 50 miles of the schooner Maude, on which Rauld Amundsen, Norwegion explorer, is attempting to reach the North Pole.

Belgians After Horses.

Calgary.—Belgian horse buyers have been in Calgary recently looking for horses suitable for use in that country. They state that they expect to do a large volume of business with Alberta livestock growers.

French Prisoners Heard From.

Paris.—French officers and soldiers taken prisoner by the Turks last May when Bozanti, Anatolia, was captured by the Nationalists, and who had been given up for lost, have been heard from through the American commission for relief in the Near East.

Bring Turks to Time

Allies Consider Ultimatum to Force Treaty Ratification.

Paris.—A despatch to the Havas Agency from Constantinople says:

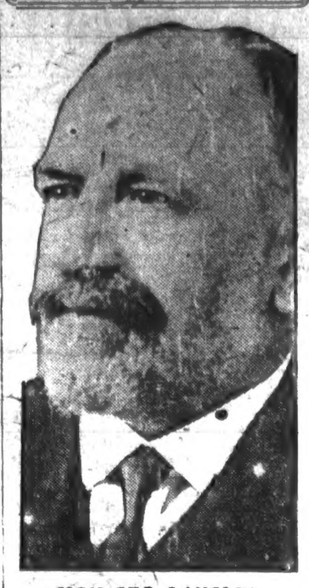

"As the Turkish government continues to postpone the execution of certain undertakings required by the Allies, notably the ratification of the treaty of Sevres by the Imperial government, the trade and financial aid given the Ottoman treasury will be curtailed. If that measure does not produce results, the delivery of an ultimatum is being considered."

Bolsheviki Take Fortified Works.

London.—The fortified works planted by General Wrangel in the vicinity of Perekop, on the isthmus leading to the Crimean Peninsula, have been occupied by the Bolsheviki, according to an official statement from Moscow, received here by wireless. The statement reads: "We have broken the enemy's fierce resistance and occupied his fortified positions near Perekop. We also occupied Armiansk Bazar."

London.—The incorporated society of authors is sending its secretary, G. Herbert Taring, on a mission in connection with questions of copyright to Canada.

A Friend of the Farmer

HON. GEO. LANGLEY.
Minister of Municipal Affairs in the Saskatchewan Government.

Mr. Langley has always been in evidence as a supporter of advanced legislation, and a keen defender of the rights of the farming community.

Unemployment in East

Fear Labor Problem in Canada Will Become Serious.

Montreal.—It is generally agreed, says a writer in the Montreal Gazette, that the coming winter is to be one of hardship in a more than ordinary degree. As reflected by the labor bureaus, both government and private, which are in close touch with conditions, the unemployment situation presents the elements of a problem which might seemingly develop into one of considerable magnitude. Both skilled and unskilled labor is badly affected. The former by the slump in industrial activity and the latter through the circumstances which follow as a natural consequence. Many plants are running at about a quarter of their normal payrolls, while the majority are reduced by about half. The metal trades are in a specially serious position and much additional unemployment has been caused by the laying off of at least 2,500 men by the Canadian Pacific Railway here.

Observe Armistice Day

Impressive Ceremonies in Memory of Britain's Dead Heroes of the Great War.

London.—Great Britain impressively honored her war heroes on Armistice Day by according a field marshal's funeral to an unknown British warrior, who was buried in Westminster Abbey, and unveiling a permanent cenotaph in Whitehall to the glorious dead. Aside from members of the Royal Family, who included three queens—Queen Mary, Queen Mother Alexandra and Queen Maud of Norway—the members of the British Cabinet and a few officials, including Hon. Sir George E. Foster, Hon. C. J. Doherty and Hon. N. W. Rowell, the only witnesses to either ceremony were persons who lost relatives in the great war.

Another Political Campaign

Drury and Crerar Will Support Farmers' National Policy.

Winnipeg.—A mass meeting will be held in Winnipeg early in December at which Hon. E. C. Drury, premier of Ontario, and Hon. T. A. Crerar, leader of the farmers of the west, will speak in support of the new national policy. This will be the beginning of a series of meeting throughout the province of Manitoba to advocate the new policy of the national party, and the campaign will be held under the auspices of the United Farmers of Manitoba. The date of the first meeting will be announced in a few days.

May Train at Ottawa.

Ottawa.—Although no decision has been made in the matter, it seems likely that in the event of the federal and provincial governments agreeing to the establishment of a central institution for training teachers of technical education, that institution will be located in Ottawa.

Plan Model Town.

Toronto.—The Ontario Government has practically completed plans for a model town on the Kapuskasing River at the Canadian National Railway crossing. It will be known as Spruce Falls.

Improve Manitoba Roads.

Winnipeg.—Expenditure of $587,000 for market roads and provincial highways in five municipalities of the province was approved by the "Good Road Board."

Hunger Strikers Receiving Food.

Cork.—Nourishment is being administered to the nine hunger strikers here, it was stated at the prison.

May Now Admit Former Enemy States to League

Lord Robert Cecil Will Support Proposal For Immediate Admission.

Geneva.—Lord Robert Cecil, one of the chief authors of the League of Nations' covenant, who is coming to the assembly of the League as a delegate from South Africa, will support the proposed immediate admission to the league of former enemy states, it is expected here. Italy, Switzerland, the Scandinavian states and some of the South American nations are understood to be favorable to such a plan.

France, Belgium, Rumania, Jugo-Slavia and Czecho-Slavia, will resist the admission of Germany and Hungary, although they are not unfavorable to Austria and Bulgaria. There are indications in League circles that the drift toward admission of former enemy countries is strong, and likely to reach the necessary two-thirds of the members, unless a compromise is effected. The sentiment is growing that, whatever may be the merits of the case, the discussion in the assembly is likely to develop a sharp controversy which the leading members of the League desire to avoid. At the first session it is probable the immediate admission of Austria and Bulgaria will be proposed, and an effort made to have action in the case of Germany postponed to another meeting of the assembly, probably in the spring. Attention is being directed to the anomaly of admitting Germany while she is still technically at war with the United States.

Want Embargo Removed

British Butchers Petition Government to Lift Embargo Against Canadian Cattle.

Ottawa. — Continuous representations are being made to the British Government for the removal of the embargo on Canadian cattle, but the replies being received convey little promise of this concession.

Forty thousand British butchers recently petitioned the authorities to lift the barrier, but were told that, while Canadian cattle may be all right there is danger from herds getting infected from the United States. This theory is discounted at the department where it is pointed out that, despite serious outbreaks of foot and mouth disease in the States, not a single case has come over the border. There is a limited privilege whereby cattle may be shipped alive to certain specified places in England if slaughtered within ten days, but this is not sufficient for finishing up the fattening process after loss of weight in transport.

Further Light on New York Outrage

Police Identify Blacksmith Who Shod Horse Hauling Explosives.

New York.—Identity of the blacksmith who shod the horse which hauled the wagonload of explosives into Wall street shortly before the disaster Sept. 16, in which thirty-nine people were killed and scores injured, has been established.

Acting Inspector Coughlin, head of the police detective bureau, made this announcement. At the same time he said his men have also established the identity of the man who took the animal to be shod and they are now seeking him.

The statement of Inspector Coughlin followed closely upon the publication by the New York Evening World of a three-page article, declaring the mystery "solved."

Depression in Cotton Trade.

Manchester, Eng.—At a conference of the International Cotton Committee, representatives of England, France, Belgium, Italy, Holland, Sweden, Japan and Czecho-Slovakia submitted reports of conditions of the trade in their respective countries, showing that the depression is world-wide and "short time" is being extensively adopted.

To Make Work Effective

Canada and States Join in Fighting The Whiskey Runners.

Windsor, Ont.—The international boundary line will no longer present a barrier to American and Canadian officers in pursuit of rum-runners upon the Detroit River.

Following a conference in Detroit some days ago, it was decided that to make the campaign along the border against rum-running more effective, an American officer should accompany Canadian license squads in their expeditions and vice versa.

Wants Freight Rates Adjusted.

Toronto.—The Canadian Manufacturers' Association has made application to the Board of Railway Commissioners asking for the earliest consideration of the question of equalizing freight rates between Western and Eastern Canada.

W. N. U. 1342

For Women's Welfare

MRS. W. E. SANFORD.
Dominion President of the National Council of Women.

Big Immigration Movement

Encouraging Entry Into Canada of Farmers and Farm Laborers.

Winnipeg.—The Ottawa correspondent of the Manitoba Free Press says: It is estimated here that the immigration movement to Canada for the present year will approximate 190,000, the new comers being very largely from Great Britain and the United States.

This total is considered highly satisfactory for the first real post-war year, especially in view of the fact that the policy of the department at the present time is to encourage the entry into Canada of farmers, farm laborers and domestics only. The high water mark in Canadian immigration was reached in 1913, when 403,436 persons entered the Dominion.

For the first six months of the present fiscal year a total of 95,005 persons entered the Dominion, an increase of 38 per cent. over the movement for the corresponding period last year. In the matter of origin they were divided as follows: British, 52,768; United States, 30,763; other countries, 11,474.

Must Stop Red Advance

Bolsheviki Attempting to Form Junction With Turk Nationalists.

Geneva.—The immediate use of all naval and military forces in the Near East, to prevent a union of the Bolshevik with the forces of Mustapha Kemal Pasha, the Nationalist leader, is declared necessary to save the Armenians from annihilation and prevent another general war, by a resolution adopted by the International Phil-American League here. The resolution says: "The Bolsheviki are moving on Armenia to form a junction with Mustapha Kemal. The entire territory of the Armenian republic is in the hands of its enemies, who threaten to hold the inhabitants as hostages for modification of the treaty of Sevres. The sole remedy is to send military and naval forces at once; delay will end the Armenian problem by the extinction of the Armenian people.

The league intends to appeal again to the League of Nations for aid for Armenia.

Austria Would Enter League

Sir Eric Drummond Informs Swiss Federation That Application is Acceptable.

Vienna.—Austria, after sounding the Entente Powers with regard to her acceptability, has asked admission to the League of Nations, according to the newspapers here.

President Motta, of the Swiss federation, the article states, asked Sir Eric Drummond, general secretary of the league, with regard to the question whether an application by Austria would be acceptable, and Sir Eric replied in the affirmative.

Workers Seize Berlin Factory.

London.—Three thousand unemployed men, part of whom were armed, stormed the Lion Metal Works in Berlin, drove out the proprietors and engineers and extinguished the furnaces, says a despatch to the Exchange Telegraph from the German capital.

In the north side gas plant of Berlin, it is said, workmen drove out the industrial council and established a political soviet.

Expansion of British Trade.

London.—A. W. Fields, British trade commissioner, of Toronto, reports on the desirability of extensive advertising by British firms in Canadian trade journals and of a far wider circulation of British trade journals in Canada.

He urged that conditions in Canada are specially favorable to an expansion of British trade with the Dominion.

Junk Ex-Kaiser's Statue.

Metz, Germany.—The town council here has peddled the statue of the ex-kaiser as old bronze, and with the $15,000 raised, built two statues for the town square. One is of the French soldier and the other of the French patriot, Paul Deroulede.

Canada's Part In Promoting the Peace of the World

New York.—The position of Canada as the link which holds firm the bonds of friendship between Great Britain and the United States was emphasized by Sir Auckland Geddes, British ambassador at Washington, in an eloquent speech delivered at a dinner given in his honor by the Canadian Club of New York.

Canada has, by force of circumstances, the duty and privilege of being the interpreter of Britain to the United States and of the United States to Britain, said Sir Auckland, Canada's great deeds and achievements have predestined her to be the leader in securing cordiality between her partners and neighbors.

"Read the manner of men the Canadians are," he said, "and you will never associate the idea of failure with their national effort." To live at peace in a spirit of war, he continued, as the world lived from 1900 to 1914, would not be enough. "We must have world peace and the spirit of peace between the nations, or humanity's convalescence may be indefinitely delayed," he said.

"Canada has now, by force of circumstances, a peculiar duty and a peculiar privilege thrust on her to be the interpreter of America to the Britons and of the Britons to America. Geographically free from the turmoil of Europe but sharing from the beginning to the end in Europe's struggles, it was Canada that pointed the way to trans-Atlantic co-operation in war and peace. Her great deeds, her great achievements predestine her to be a leader in securing cordiality between her partners and her neighbors. She can do what no other can. She, by both well-known methods beyond misunderstanding or possibility of successful misrepresentation, can speak to America and to Britain and her partners about the world.

"The Atlantic is broad and news that goes across it in either direction seems to suffer a sea change whether it passes by cable or mail, but there is no transforming medium between Canada and this country. Each must know the other as it is and each being what it is must respect and admire the good qualities of the other."

Favors Conscription

General Turner Says Men Should be Forced to Fight.

Hamilton, Ont.—If Canada profited from the lessons taught by the world-war, there should be no necessity to urge the need for a well trained militia, said Lieut.-Gen. Sir. R. E. W. Turner, V.C., K.C.B., D.S.O., in addressing the members of the Canadian Club here. Aviation should be developed, not only along military lines, but to place it on a sound commercial basis as well, he said.

General Turner said it was a mistake for a country to allow its married men and those approaching the age limit to volunteer for military service during a war before the robust manhood had first been placed in the ranks. If the latter would not enlist voluntarily then they should be made to fight, he declared. If a man wants to have a voice in the affairs of his country in peace time he should be prepared to shoulder his responsibilities during war time, he added.

Having returned recently from an extensive trip to the north land, General Turner concluded his address by stating that much oil would be found in that part of Canada.

May Meet at Ottawa

Meeting of Empire Prime Ministers May Be Held in Canada.

London.—Premier Lloyd George stated in the House of Commons that arrangements had been made to hold a meeting of prime ministers of the empire in June, 1921. It was asked if an undertaking could be given that no decision would be come to regarding such questions as Mesopotamia until the premiers met.

Premier Lloyd George replied that such a proceeding would be quite impossible. He said: "The expense, after all, is not on the empire, but on Great Britain."

The premier added that the question of holding the premiers' meeting at Ottawa had been under consideration.

Message from Arctic Explorer

Capt. Amundsen Sends a Telegram That All Is Well.

Copenhagen.—Captain Amundsen, the Arctic explorer, has sent the following telegram to the Berlingske Tidende, from East Cape, Siberia, bearing date of August 13: "We sailed from Nome immediately after my wire of August 8, with only three men, as the others claimed wages of £300 sterling monthly. The following day we were held up by pack ice in Behring Sea. All aboard well."

The foregoing is the first direct message from Captain Amundsen since he set out on his Polar expedition from Nome, Alaska, in the ship Maude, August 9. Five weeks later information reached Nome that the famous explorer's ship had become wedged in ice twenty miles off Cape Serge, 225 miles northwest of Nome, on the Siberian coast.

Predicts Another War

Polish Press Looks For War Involving Britain If Upper Silesia Given To Germany.

Warsaw.—The declaration that war between Germany and Poland would be inevitable if the plebiscite to be held in Upper Silesia gives that region to Germany, is made in the Gazette Poranna, the organ of the National Democrats.

The paper predicts that another war would result, with France and Belgium joining Poland and Great Britain siding with Germany. It adds: "If Britain should enter this war it would mean, perhaps, the end of British world power," and contends that Great Britain has shown certain leanings toward Germany in Silesian affairs and warns Britain to keep her hands off.

The date of the plebiscite in Silesia has again been postponed indefinitely. Meanwhile, unrest in the region continues. The Polish miners, factory workers and rural laborers are dissatisfied with the German landlords and capitalists and constant friction is reported. A dispatch from Beuthen says that the allied authorities seized a carload of German artillery, mine throwers, machine guns and ammunition.

Alberta School Lands Sale.

Ottawa.—At the request of Hon. Geo. P. Smith, minister of education in Alberta, an order-in-council has been passed providing for sales of school lands in Alberta, at Viking, Nov. 15; Leduc, 17; Consort, 17; Wetaskiwin, 18; Donalda, 19; Eckville, 20; Okotoks, 22; Innisfail, 23; Didsbury, 24; MacLeod, 24; Cardston, 26; Cochrane, 26; Jenner, 29; Empress, Dec. 1.

Absolute Prohibition in U.S.

Washington.—Home brewing was brought actively under the prohibition ban when it was learned that enforcement officials had ruled against the sale of hops and malt to bakers and confectioners.

Prohibition officials admitted that the Volstead Act had been construed to mean that the sale of hops and malt as component parts of home made beer was unlawful and must be stopped.

German Miners Hostile

Would Destroy Mines if Allies Occupy the Ruhr Region.

Berlin.—In an interview at Amsterdam where he has just returned after an investigation of the Ruhr district, in Germany, on behalf of the International Labor Union, Edo Fimmen, of Holland, president International Federation of Transport, declared that the German miners would destroy the mines if the Ruhr region were occupied by the Allies.

In an interview, Fimmen is quoted as saying that occupation appears to be possible, although the German miners are doing the best they can, and that whatever shortage there exists in coal deliveries, is not due to lack of effort, but to the political conditions as regards Poland.

Production of Silk Suspended.

Tokio.—Production of silk has been suspended for three months by the Silk Manufacturers' Union. There has been a general depression in the industry for some time and the Yokohama silk exchange closed October 27 when silk prices fell below the minimum fixed by the buying syndicate.

Predicts Atlantic Air Route.

New York.—Within five or ten years people going to Europe will be able to make the trip by airplane in less than a day, Anthony J. Fokker, inventor of the Fokker plane used by the Germans in the war, predicted here. Fokker arrived on the Holland American liner Nordam.

Toronto Fuel Control.

Toronto.—The Ontario fuel controller is issuing special instructions to all dealers that in filling further orders they must first secure from the consumer a declaration that he has not on hand sufficient coal to last him through the winter. The order will go to all dealers and the mayor of each municipality.

Prefers Work In West.

Calgary.—Capt. Evan J. Edwards, imperial trade commissioner to Canada, told Albertans that he found his work easier in the west than any other place. He ascribed this to the breadth of the people and their foresight.

The Canadian Juveniles

An evening of genuine enjoyment was spent by all those attending the "Canadian Juveniles" at the Veteran Theatre on Monday evening last. The programme consisted chiefly of singing, dancing and recitation, and the Juveniles proved beyond a doubt their Versatility and ability. The singing was good, and dancing could not be improved upon. The youngest of the Juveniles, age five years, was elected the star by the entire audience and her song "Those Wild Wild Women" nearly brought down the house, and she was encored several times. She sang three or four times during the evening, each time being met with the same enthusiasm. The little Scotch dancer, is also deserving of much credit, and proved to the audience that she was "there with the goods," and her dancing has never been equalled in Lacombe. The two singers also were greatly enjoyed, their voices showing excellent training, and they were applauded to the echo on each appearance. The two boys were very good, and in fact, the entire troupe was without a doubt the best Juvenile performers we have had the pleasure to hear. Much credit is due the curlers for bringing to Lacombe this entertainment, and we are pleased to say they were greeted with a large audience which netted them a considerable sum of money.

The Bible and Spiritualism

A large congregation were present last Sunday at St. Andrew's Church when the Pastor dealt with the subject "The Bible and Spiritualism." Taking as his text Isaiah 8:19, the preacher showed how the Bible expressly forbade communication with the spirits of the unseen world. He traced the origins of spiritualism back to Taoism, the religion of China, and showed how the modern phase began in 1848. He declared that there was a note of uneasiness in the minds even of such eminent spiritualists asSir W. Barrett and Sir A. Conan Doyle, quoting from their works to illustrate this point. The message of the bible was that those who mourn should seek God. The subject next Sunday will be "The Attitude of Spiritualism to Jesus Christ," and any interested are welcome to these services.

Induction at Alix

The ordination and induction of Rev. E. J. Rainey into the pastoral charge of Alix, and Stone took place in the Church at Alix on Monday evening before a large congregation. Service was conducted by Rev. A. T. Barr, of Lacombe, and thereafter the ordination ceremony was performed, Rev. Barr officiating. Rev. A. Stewart, gave a short address to the minister and the people were addressed by the moderator. Refreshments were served at the close.

Important Case

The interminable dispute between S. W. Paisley, and the Municipal authorities, arising from road building near the Paisley property, will be settled in court. The case came up before Judge Walsh, at Red Deer last week, and after all the evidence had been taken, the judge reserved decision. This question of water diversion is a very important one, and all municipalities in the province are watching with interest for the Judge's decision. In this case Paisley claims that the municipality diverted water from a natural run-way and turned it on his land.

E. L. SCOGGINS.
